Your Caricature

About Us

Cariur is a way to find a new solution to your events in order to create fun vibes for everyone and especially for your kids. One of our ways is offering live caricaturists which could be a unique keepsake to remember the event (graduation party, anniversary, birthday party...) Besides, we have a wide range of caricatures services from digital drawings to themed artwork. We can add some of our ideas to your kids activities that we think they would love.
